

The company that keeps it moving

The KSB brand architecture is based on four core values:

Quality

Reliability

Excellence

Global Perspective

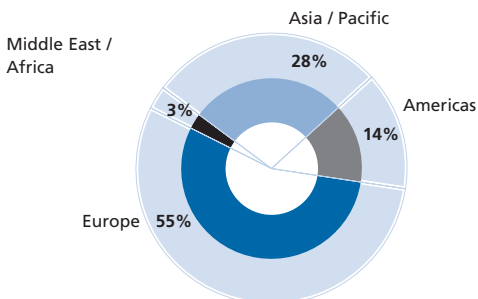

Company profile

Reliable and economical fluid transport is our métier. KSB is a leading international supplier of innovative pumps, valves and systems. All around the world, we provide first-class products and excellent service for energy and industrial applications, water and waste water transport, building services and mining.

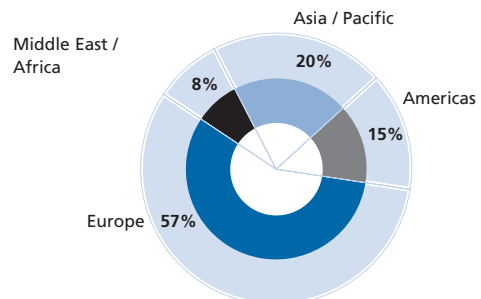

KSB Group figures (31 Dec. 2008)

| | | |
|---|-----------|---------|
| Manufacturing sites worldwide | | 34 |
| Manufacturing and sales companies worldwide | | 51 |
| Service centres worldwide | | 129 |
| Employees | | 14,345 |
| Sales revenue | € million | 1,991.7 |
| Earnings before taxes (EBT) | € million | 200.1 |

Employee population by region

Sales revenue by sales region

Products and services

Pumps

Drainage and waste water pumps, sewage lifting units, pressure boosting systems, multistage pumps for domestic water supply, circulators, standardized chemical and hot water / heat transfer liquid pumps, standardized water pumps, submersible borehole pumps, sewage pumps, boiler feed and circulating pumps, condensate and cooling water pumps, reactor coolant pumps and pumps for secondary power station circuits, slurry pumps and mixers.

Valves

Globe, gate, butterfly, diaphragm and ball valves for reliable fluid flow shut-off and control.

Systems

Control and drive systems for pumps and valves, as well as all-in hydraulic systems complete with pumps, valves and associated control equipment.

Service

Installation, commissioning, start-up, inspection, servicing, maintenance and repair of pumps, valves and related systems. Modular service packages for complete systems.

Industry

Our products serve users reliably in industrial, process engineering, hot water and heat transfer liquid systems around the globe.

Energy

With pumps for fossil-fuelled, combined cycle and nuclear power stations, KSB is a world leader in this sector. Reliable high-pressure valves round off our portfolio.

Water

KSB products and services help establish and expand infrastructure for drinking water supply. Product applications include water extraction, treatment and transport.

Waste water

KSB supplies environmental products to industry and the public sector for use in sewage treatment plants and waste water pumping stations.

Building services

We provide water supply, drainage, sanitation, heating, ventilation and air-conditioning equipment for hotels, banks, sports stadiums and airports.

Mining

Our slurry pumps can handle fluids with a solids content of 80 percent. They are used in mines, in the oil sand industry and on suction hopper dredges.
